

# Wall Switch-On/Off Button

The AC203 On/Off Button is a portable wireless switch designed to control the On/Off status of other associated devices thru the Z-Wave controller. After receiving the signals emitted by the On/Off Button, the Z-Wave controller can then give commands or operate according to its own settings. Its great compatibility with Z-Wave products makes it suitable for smart home cloud based platforms.

## Main Features

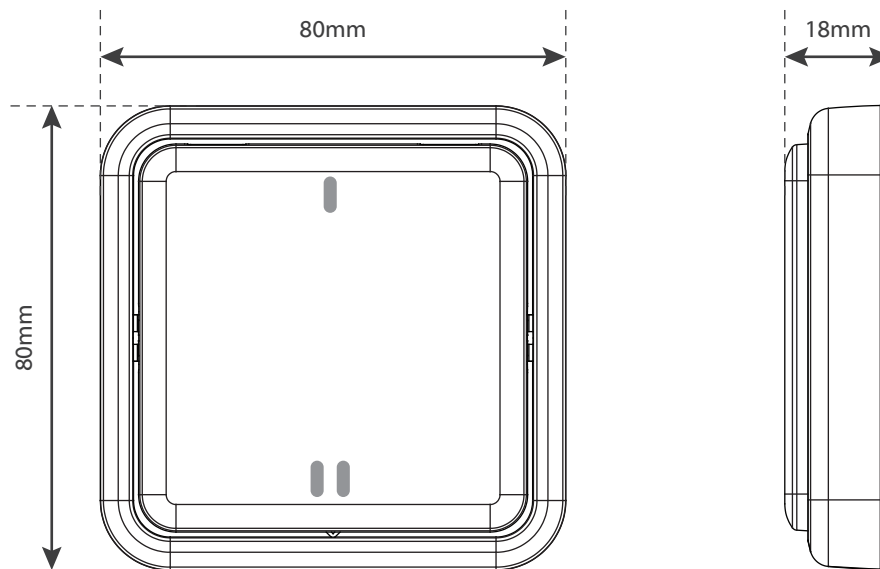

- Wireless two-way communication
- Comply with S2 security solution
- Battery powered
- Auto-pairing to the gateway
- Control two sets on/off of electrical devices
- Low battery indication
- Portable, can be placed anywhere

## Brief Product Specifications

Function range	868.42MHz / 921.42MHz
RF range (open space)	Up to 1000m
RF protocol	U-net 5.0
User interface	2 x Push button, 1 x Link button
Battery type	1.5V alkaline AAA x 2

Operation temperature	-10°C - 40°C
Operation humidity	85% RH Max
Dimension (mm)	80(W) x 80(D) x 18(H)
Weight	57g
